Descripción del perfil

Hello! I am the Founder and Owner of Baru Agency, Inc. and it's well known 5 Cents T-Shirt Design start up. I am a Creative Junkie and love designing custom t-shirts, logos, promotional items, and AWESOMIZING ideas for our clients. I am enthusiastic, a "go-getter"?, and easily inspired! Let's take a step back in time. Before 5 Cents T-Shirt Design, I founded and successfully managed two other start ups, selling them both for a profit. They were both great concepts! and were the perfect opportunity to make mistakes and learn from them. After selling them I knew where my passion was, and got back into designing t-shirts. Now, my business is growing rapidly and continues to grow each day. I strive to be unique by thinking of unconventional ways to operate. This helps set me apart from the competitors but also allows my creative side to shine, allowing me to think "outside the box". I enjoy mentoring and inspiring others to pursue their dreams. When I am out of 5cents T-Shirt Design mode, I stay productive by spending time with my two daughters and my beautiful wife. My growing family is a huge inspiration for my personal and business accomplishments. I am also working towards becoming more involved with my community. Recently, I was a guest speaker at a local college to guide and help students with their marketing and branding efforts. I continue looking for more ways I can be involved or help others with their creativity. I love meeting and communicating with other professionals from any industry, so I encourage you to contact me anytime!
