Descripción del perfil

I am Arthur Durand, a 33 years old French national living in Spain (currently Madrid) for more than 7 years. I have joined a Biotech company in 2018 as Senior Talent Acquisition Partner and I am handling the recruitment in the Western Europe Region (France, Spain and Portugal). I have started my professional path in the French Navy as Ensign / Second Lieutenant of the supply corps on the Frigate “Guépratte”. I have served in the Navy for 1 year, mainly in the Indian Ocean to fight against Somalian Piracy. Before (trough internship programs) and after this amazing experience, I have worked in several recruitment agencies in Paris, Barcelona and Madrid, filling positions in all the EMEA region. My first experience within the pharmaceutical industry has been at Pfizer where I worked as recruitment manager for the South-Western Europe Region. After almost 2 years there I joined Cardinal Health as Senior Talent Acquisition Partner EMEA. I studied business administration in France (Master degree at ESCEM Business School) and I really enjoy recruiting people in different countries and with different cultures. Apart of my job as Talent Acquisition Partner and for more than 5 years now, I also teach in 3 different business schools (MBA programs). My specialties include CV writing, and interview preparations, job search and LinkedIn profile optimization. Languages: Spanish, English and French.
